

NITRILE SKIN²

DISCOVER YOUR 2ND SKIN

PROTECTION FROM INFECTIONS – virus-proof for users and patients¹⁾
EXCELLENT SENSE OF TOUCH – through optimised wall thickness
HIGH WEARING COMFORT – through the innovative, soft material

Protection against infections
Excellent sense of touch

High wearing comfort
Free from natural latex

YOUR NEEDS UNDER CONTROL

In addition to protection, wearing comfort and skin-friendliness, a good sense of touch is the most important criterion when choosing the right examination glove. The new Sempercure® Nitrile Skin² combines these properties in a unique, exceptionally light glove.

The soft material developed by our European Research Centre allows for maximum sense of touch and comfort due to optimised wall thickness, and at the same time maximum protection from infections.

Discover your 2nd skin!

- **Protects** users and patients from the transmission of infections. In addition to the impermeability requirements of the European standard, the gloves also fulfil the virus impermeability requirements of ASTM F 1671.
- With the **newly developed material**, the Sempercure® Nitrile Skin² feels **soft and light**.
- The elastic material offers highest wearing comfort and a maximum **sense of touch**.
- The structured fingertips guarantee a **sure grip** at all times, even in a moist environment.
- The glove is powder-free and does **not** contain any **natural latex proteins**. This makes it ideal for people with type I allergy who do not want to miss the comfort of latex.
- The Sempercure® Nitrile Skin² is both labelled as medical device (class 1) and single-use protective glove (PPE category III). Thereby it can be used for additional applications such as laboratory/pharma, food/catering, professional cleaning/hygiene.
- The **violet colour** makes it easy to distinguish from natural latex gloves and allows for easy recognition.

TECHNICAL DATA

sempercure®  **nitrile skin²**

TYPE	Unsterile, powder-free examination glove for single use
MATERIAL	Nitrile butadiene rubber (NBR)
COLOUR	Violet
GLOVE SHAPE	Flat with rolled rim
OVERALL LENGTH/SIZE as per EN 455-2	XS, S, M, L, XL 240 mm
WALL THICKNESS measured in double layer in the palm area	median 0.14 mm
IMPERMEABILITY as per EN 455-1	AQL 1.5
FORCE AT BREAK as per EN 455-2 FORCE AT BREAK production value (stand 9/2011)	≥ 6 N median 7 N
DURABILITY in original packaging if stored as per DIN 7716, ISO 2230	3 years
PACKAGING	In dispenser carton XS, S, M, L 200 gloves loose, XL 180 gloves loose 10 dispenser cartons per shipping carton
MARKING	EN 1041, EN 980, EN 420, ISO 15223
PURPOSE as set out in MDD 93/42 EEC as set out in PPE 89/686 EEC	Medical device class I Single-use protective glove - PPE category III (protection against chemical substances for limited time) ²⁾
